

# Authentic Kata / Hyung Applications

# FILL IN THE BLANKS

**WHAT:** A one day, two hour, hands-on introduction to the genuine original combat applications of empty hand Martial Arts Kata / Hyung - forms. Martial artists put a great deal of effort into learning the forms associated with their styles but most never really learn the true applications associated with them. Nearly all applications Martial Artists are exposed to are made up and not valid.

Through this seminar, trainees will learn the true original warrior fighting applications with their many layers including the hidden weaponry and grappling aspects. Participants will also go beyond the applications to discover the multiplistic levels of applications and their relational connections found within each pose, posture, and movement. Attending this event will enhance your solo performance for testing, tournaments demonstrations, and personal satisfaction.
